OVERVIEW

A reversed Jenga meets Twister!
Anarchitect is a dexterity party game that only takes a minute to learn! Players pull multi-colored blocks from a blind bag and find creative ways to build from their rolled color to the top of an ever-growing tower without knocking it over.

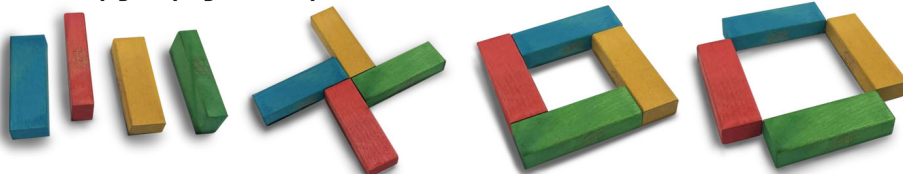

Players lean in during each other's turns!

Players love to take photos of their builds!

Mix up your play with unique bases!

Different bases lead to very different towers!
